

How to avoid being scammed

The World Class Schools - Life Skills Network

Summer 2021 Challenge

This is a Year 12/Year 13 challenge

1. What is the challenge?

A lesson teaches via a video and some pre-made hand-outs how to avoid being scammed - and students undertake to disseminate the hand-outs to parents, and grandparents within an agreed period of time to be set by the school, not to exceed two weeks after the date of the symposium.

2. What happens at the end of the challenge?

At the completion of the challenge, the teacher fills in a form she downloads, and posts it to the Life Skills Network, detailing the pertinent information from the outcomes of the challenge.

3. How long will it take to get a class certificate, and how can the school use it?

Certificates are issued within 7 days of the receipt of the form, electronically. Dissemination or display remains at the school's discretion.

May/June 2021
